

AMENDED IN ASSEMBLY JUNE 23, 2005

AMENDED IN SENATE APRIL 6, 2005

SENATE BILL

No. 303

Introduced by Senator Chesbro
(Coauthor: Assembly Member Berg)

February 16, 2005

An act to add Chapter 24.5 (commencing with Section 78801) to Part 2 of Division 22 of the Food and Agricultural Code, relating to agriculture, and making an appropriation therefor.

LEGISLATIVE COUNSEL'S DIGEST

SB 303, as amended, Chesbro. The Mendocino Winegrape and Wine Commission.

Existing law provides for various commissions to promote the production and marketing of agricultural commodities.

This bill would create the Mendocino County Winegrape and Wine Commission in state government to be composed of 6 producers *who are not vintners*, ~~5~~ 4 vintners, ~~2 at-large members~~, and one public member, elected or appointed to 2-year terms, as specified. This bill would provide that the Secretary of Food and Agriculture may require the commission to correct or cease any function or activity he or she determines is not in the public interest or that is in violation of these provisions upon service of a written notice.

This bill would provide ~~that in order for it to be implemented, both producers and vintners must approve it for approval of these provisions~~ in a referendum conducted as specified. This bill would provide that, *prior to the beginning of each marketing season*, the commission shall establish and collect an assessment from producers and vintners ~~not exceeding \$12 per ton of winegrapes delivered or received~~ *assessment rates for producers based upon the number of*

tons of winegrapes delivered to vintners, and on vintners based on the number of tons of winegrapes delivered to vintners, and on vintners based upon the number of tons of winegrapes processed and on marketed, as applicable, and authorize the expenditure of those funds for the purposes of carrying out these provisions, thereby making an appropriation.

This bill would provide that a penalty and interest shall be paid by any person who fails to remit this ~~assessment~~ *assessment* within the time required by the commission. This bill would require producers and vintners to keep complete and accurate records, as specified. This bill would provide that the commission may commence civil actions to enforce these provisions.

Lastly, this bill would provide that every 5 years commencing with the 2011-2012 marketing season, upon recommendation by the commission, or upon petition, the secretary may hold a hearing, and subsequently a referendum, to determine whether the operation of these provisions should be continued, as specified.

Because this bill would create new crimes, the violation of which would be misdemeanors, this bill would impose a state-mandated, local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: yes. Fiscal committee: yes.
State-mandated local program: yes.

The people of the State of California do enact as follows:

- 1 SECTION 1. Chapter 24.5 (commencing with Section 78801)
- 2 is added to Part 2 of Division 22 of the Food and Agricultural
- 3 Code, to read:

CHAPTER 24.5. MENDOCINO COUNTY WINEGRAPE AND WINE
COMMISSION

Article 1. Declarations and General Provisions

78801. The production and distribution of winegrapes and wine in Mendocino County constitute important industries that provide substantial and necessary revenues for the county and state, and employment for citizens of the state. It also furnishes an important food product that benefits the public health and welfare.

78802. The maintenance and expansion of the winegrape and wine industries of Mendocino County and of its local, national, and foreign markets is necessary to assure that the consuming public of a continuous supply of these products and needed levels of income for those engaged in the winegrape and wine industries in Mendocino County.

78803. Opportunity exists for continued growth and expansion of the Mendocino County winegrape and wine industries by creating new markets in the state, the county, and abroad. The success of an expansion program is uniquely depending upon effective education, advertising, promotion, and research, since the creation of new markets is essentially a matter of educating and informing people of the use and availability of the commodity. The expansion of the Mendocino County winegrape and wine industries also provides an important source of jobs for many people in the area, and serves to ensure the preservation of an agrarian society.

78804. The production of winegrapes, wine, and winegrape products in Mendocino County has the potential to be one of the leading segments of the state's winegrape and wine industries. To realize this potential, there is a need to make consumers aware of the high quality of winegrapes, wine, and winegrape products produced in Mendocino County. The activities made possible by the establishment of the commission will meet this need and further the interests of the industries and the state.

~~78805. The production and marketing of winegrapes, wine, and winegrape products produced in Mendocino County is hereby declared to be of public interest, therefore it is necessary and appropriate that these provisions be specifically applicable to~~

~~Mendocino County. This chapter is enacted in the exercise of the police power of this state for the purpose of protecting health, peace, safety, and general welfare of the people of this state.~~

~~78806.78805.~~ The Mendocino County winegrape and wine industries have enjoyed much success due to a commitment by the industries to fund research that has led to significant improvements in the quality and variety of winegrapes and wine available to consumers. It has also led to winegrapes and wine being a better consumer value. The establishment of the commission will continue to enhance this research effort and move the Mendocino County winegrape and wine industries toward its potential, resulting in increased consumer value and enhanced returns to the grower and vintner growers and vintners.

78806. The production and marketing of winegrapes, wine, and winegrape products produced in Mendocino County is hereby declared to be of public interest, therefore it is necessary and appropriate that these provisions be specifically applicable to Mendocino County. This chapter is enacted in the exercise of the police power of this state for the purpose of protecting the health, peace, safety, and general welfare of the people of this state.

78807. (a) It shall be the policy of this state to preserve and encourage agricultural activities in the state, promote consumption of agricultural commodities produced and harvested in California, provide for research, governance, and accountability, including the ability for agriculture to act collectively and to assess itself through the process of referenda.

(b) It shall also be the policy of this state that the program authorized in this chapter shall engage in activities that are not more extensive in scope than is necessary to accomplish its purposes, and that the powers and duties of this program are designed to directly and materially advance the state's interest in a stable, thriving agricultural industry. Further, this policy can be implemented most effectively by the collective actions authorized in this chapter while not preventing individuals from additionally engaging in self-help activities.

~~78807.78808.~~ No action taken by the commission, or by any individual in accordance with this chapter or with the regulations adopted under this chapter, is a violation of the Cartwright Act, Chapter 2 (commencing with Section 16700) of Part 2 of

1 Division 7 of the Business and Professions Code, the Unfair
2 Practices Act, Chapter 4 (commencing with Section 17000) of
3 Part 2 of Division 7 of the Business and Professions Code, or any
4 statutory or common law against monopolies or combinations in
5 restraint of trade. Proof that any action complained of was done
6 in compliance with this chapter shall be a complete defense to the
7 action or proceeding. The Legislature intends this program to be
8 among those contemplated by Congress in the enactment of
9 Section 610(i) of Title 7 of the United States Code.

10 ~~78808~~:78809. The commission form of administration created
11 by this chapter is uniquely situated to provide those engaged in
12 the production of winegrapes, wine, and other winegrape
13 products in Mendocino County the opportunity to avail
14 themselves of the benefits of collective action in the broad fields
15 of development, maintenance, and expansion of markets,
16 production, marketing, processing, and health-related research,
17 public and trade education, and advertising and promotion
18 necessary to achieve the purposes stated herein.

19 ~~78809~~:78810. This chapter shall be liberally construed. If any
20 provision of this chapter or the application thereof to any person
21 or circumstances is held to be invalid, the invalidity shall not
22 affect other provisions or applications of the chapter that can be
23 given effect without the invalid provision or application, and to
24 this end the provisions of this chapter are severable.

25 ~~78810~~:78811. It is hereby declared as a matter of legislative
26 determination that members of the commission are intended to
27 represent and further the interest of the particular agricultural
28 industry concerned and that this representation and furtherance is
29 intended to serve the public interest. Accordingly, the Legislature
30 finds that, with respect to persons who are elected or appointed to
31 the commission, the particular agricultural industry concerned is
32 tantamount to, and constitutes, the public generally within the
33 meaning of Section 87103 of the Government Code.

1 immediately preceding marketing season. However, if the
2 commission finds that the amounts returnable are such that it

4 and refund the moneys to the assessment payers, ~~then~~ any funds
5 remaining after payment of all expenses of winding up and
6 terminating operations shall be withdrawn from the approved
7 depository and paid to another program conducted or used to
8 fund activities related to the subject matter of this chapter.
